Functionality

MUE-5832 Exchange Partner Parameters for Relaxation of PDH

End of MUE

Enhancements were added in a previous release to relax PDH for non-prescription drugs, and for minor changes to forms on the fill message. With this release, parameters have been added in the Exchange Partner setup to allow clients to enable this functionality themselves.

- These settings will default to No.

Functionality

Release 21.15 Revert to pulling the M0060 value from the home zip

For the **Home Health OASIS**, the **M0060** value will pull from the Patient Profile home zip code.

- Starting in release 2021.12, the zip code had started pulling from the Location of Care. This was unnecessary for Home Health patients.
- The Hospice HIS A0550 value will continue to pull from the Location of Care/Location of Service.

**Note:** Enterprise Home Health claims will continue to use the Location of Service to determine the Qcodes and CBSA codes for Value Code 61. Changes in the Clinical Patient Profile do not automatically update the Location of Service for Home Health patients.

MUE-4799

## Functionality

MUE-4799 Add New Record button disabled

- With COB claims, when a payment has been made, and then reversed, the **Add New Record** button should no longer be enabled.
  - Prior to this release the button was remaining active, leading users to believe they could still manually add adjustment information.
- With this release this has been corrected and the button will not remain enabled when payments are reversed and not reapplied.

Setup

MUE-4875 Additional Usability changes to Organization Parameters

MUE-4875

Navigate to Setup > General > Organization Parameters.

### Updates include:

- The full org path description is displayed for orgs which have settings enabled.
  - The edit button has been removed; click on the row to open it on the right side to edit.
- The selected org stays highlighted even during scrolling.
- The orgs are now displayed in alphabetical order.
- When editing an org, the right hand side displays the selected org in a fixed pane.

The screenshot displays the 'Organization Parameters' interface. At the top, there is a title 'Organization Parameters' and a search bar. Below the title, there are radio buttons for 'Show: Active', 'Inactive', and 'All'. A table lists various organization entities with columns for 'Organization Entity' and 'Effective Date'. The row 'TOP / E / 1 / CMOCRC / HB / Seawv IL' is highlighted in blue. To the right of the table, there is a sidebar with a search bar and a list of settings categories, including Benchmarking, Bereavement Settings, CareFabric, Census Settings, Charge Generation/Room and Board, Claim Settings, Clinical Settings, Exchange Settings, Face Sheet Items, General Settings, HL7 Settings, Hospice Per Diem Charges, MDS/Assessment Scheduler, OrderConnect, Payments, Resource Scheduling, Patient Trust Account Settings, Notes Settings, Personnel/Personnel Requirements Settings, Telephony Settings, and Touchscreen Settings.

MUE-3131

Functionality

MUE-4875 Additional Usability changes to Organization Parameters

MUE-4875

Navigate to Setup > General > Organization Parameters.

### Updates include:

- A new search tool has been added below the selected org.
  - Enter any text and any of the categories, headers, and labels with that phrase are highlighted in yellow; and the affected categories will expand.
  - Other categories can be expanded when the search is active, but when it is cleared, functionality returns to allow only one category to expand at a time.

**Note:** The search function only searches titles, categories, and labels, not the values entered in the fields.

The screenshot shows the 'Organization Parameters' interface for 'TOP / E / 1 / CMOCRC / HB / PImdl RC' with an effective date of 06/01/2016. A search box contains the text 'Medicare'. Below the search box, the 'Benchmarking' section is expanded, showing a table of 'Percent of Medicare Days per Month' with categories like 'Rehab plus Extensive Services', 'Rehabilitation', 'Extensive Services', 'Special Care High', 'Special Care Low', 'Clinical Complex', 'Behavioral Symptoms and Cognitive Performance', and 'Reduced Physical Function'. The 'Internal Quality Benchmarks' section is also visible, showing 'Rehospitalization' at 10.0000%. The 'Bereavement Settings', 'CareFabric', and 'Census Settings' sections are partially visible at the bottom.
