Regulatory News

Regulatory News from the NTST Regulatory Analyst has been placed on the top of the Release Notes page on the training portal. Latest three entries will appear on top and an archive page will exist for those earlier than the latest three.

Release Notes

A compilation of all Enterprise release notes and updates in chronological order.

Regulatory News

Here you will find news and announcements about regulatory changes in the Post Acute Care space.

2022 Release Schedule ►
Regulatory and Form Updates ►

📢 Announcement
July 20, 2022

IMPACT: All
Renewal of Public Health Emergency (PHE)

The PHE was renewed July 15, 2022, extending the expanded PHE related provisions, such as telehealth, for an additional 90-days or October 13, 2022.

📢 Announcement
June 30, 2022

IMPACT: Hospice
Hospice Gap Days on Transfer – New Edit effective July 1, 2022

Affected Regulation
CMS has interpreted the regulations at 42 CFR 418.26 to mean if there is a "break in care" (or gap) between the transfer out of and into another hospice means it is not a continuous hospice election.
